

Dr. Inas Alhudiri

MBChB, PhD, Nottingham (UK) Associate Professor Genetic Engineering Department, Libyan Biotechnology Research Centre, Tripoli, Libya.

Mobile: 0021891094979 E-mail:inas.alhudiri@btc.org.ly einasse@gmail.com

Dr. Inas Alhudiri is a medical professional and researcher with wide experience in genetics, and biotechnology research. She received her Bachelor of Medicine and Surgery (MB ChB) from Sabha University (Faculty of Medicine) in Libya, and her Membership of the Royal College of Surgeons (MRCS) from the Royal College of Physicians and Surgeons of Glasgow, UK. Dr. Alhudiri continued her education at the University of Nottingham, UK, where she earned her PhD from the School of Clinical Sciences in 2012.

Currently, Dr. Inas Alhudiri serves as the Head of the Genetic Engineering Department at the Libyan Biotechnology Research Centre in Tripoli, Libya. In addition, she is the Head of the Libyan Biobanks project and a member of the Bioethics Committee at the Biotechnology Research Centre. Dr. Alhudiri has also held several other key positions, including Chairman of the Technical Committee for Combating COVID-19, Director of the Vaccination Unit, and Member of the Joint Committee for Combating COVID-19.

Dr. Alhudiri research interests include breast and colon cancer risk assessment, investigation of breast cancer gene variants and mutations, and assessing genomic diversity. She has been involved in several collaborative research projects, including the AGenDA project with the H3Africa Consortium and Genome Analysis Working Group and the GEORGiNA study with North African researchers, which focuses on mapping gender disparities in oncology publications.

She has also demonstrated teaching skills, serving as a Professor of Molecular Biology and Medical Genetics at the School of Life Sciences at the Libyan Academy. She has supervised numerous master's students during their research year and is currently supervising four students in their final stage of the project.
